L. Moses

Monte Vista.
 Frank H. Catlin, of the Denver Gas and Electric Co., was in Alamosa Wednesday looking after some interests he has in the valley.

The Seaman Syndicate has a party of homeseekers in from the east today and are showing them some of the finest land in the valley.

Mrs. H. A. Goodridge and Mrs. A. Oliver, accompanied by their daughters, left for Denver Tuesday evening for a visit of a few days duration.

San Luis Valley pea fed lambs topped the market at St Louis last week at \$6.75. There were two carloads of the lambs and they averaged 81 pounds.

The citizens of Moffat and Crestone are organizing a company with a capitalization of \$15,000 for the purpose of sinking a well for oil in that district.

The residents of Saguache county are considerably worked up over an alleged misappropriation of funds subscribed for the building and upkeep of their roads.

W. F. Boyd, president of a bank at Saguache, was here Wednesday renewing acquaintance with old friends. He left that evening for Denver to attend a banker's meeting.

William Murray, a lad about fourteen or fifteen years old, ran away from home last week on account of a disagreement with his mother. He is supposed to be working on a ranch in the northern part of the valley.

Ham Price, who is visiting home folks, says if his mines at Central City turn out as well as he anticipates he will come back here and buy up most of the land in the valley and then give the real estate men the job of selling it for him.

Prof. Walter Norton, an English shorthand expert, has secured a room in the building occupied by the Shepard Studio on Main St., and will open up a business college. It will be opened up for business Monday with competent teachers in charge.

When her child is in danger a woman will risk her life to protect it. No great act of heroism or risk of life is necessary to protect a child from croup. Give Chamberlain's Cough Remedy and all danger is avoided. For sale by Grove-Shea Drug Co.

When a real estate firm can bring in a party of homeseekers and locate all of them it speaks well for the valley. This feat has been accomplished several times by enterprising real estate men of Alamosa—but we are not going to

absence.
 A new fish hatchery may be started on the Conejos river. If the stories told by some of our expert fishermen are to be taken into account we need it to keep the streams of the valley stocked, and two of them would be better.

T. M. Dolan, the well known "double crosser" has succeeded in convincing the Del Norters that he is "on the square" and he will be employed in that city during the coming season as one of the pitching staff in the ball team.

How to cure a cold is a question in which many are interested just now. Chamberlain's Cough Remedy has won its great reputation and immense sale by its remarkable cure of colds. It can always be depended upon. For sale by Grove-Shea Drug Co.

A case has been filed by some of the Mexicans in Alamosa to see if the school board has any authority to compel Mexican children to attend any particular school building when another one is more convenient. It will probably be heard Monday.

Grantham & Co. last week purchased the saloon formerly conducted by T. J. Cooper and have put A. W. Lee in charge. Arthur, having once been a railroad man, can recognize all kinds of distress signals and, therefore, is the man to fill the place to the satisfaction of both proprietors and patrons.

Joe Grantham and Senator W. H. Adams attended the democratic state central committee meeting in Denver Monday. They said for the sake of maintaining the harmony that now prevails in the party Colorado Springs was selected as the meeting place and the date for that momentous event is April 29th.

Oscar Seaberg, mail carrier on Rural Route No. 1 out of Alamosa, died last Friday from the effects of pneumonia. About a year had elapsed since the death of his father from the same disease which made the blow much harder on his aged mother and relatives. They have the sympathy of the community in their bereavement.

Frank Robinson of La Veta came over Tuesday to visit his brother, William, a few days. Mr. Robinson was a resident of Alamosa about fifteen years ago, at which time he was water superintendent for the D. & R. G., and will be remembered by a good many oldtimers as something of a musician. It is reported he has a 12-string guitar along with him on this trip.
